

MEDTECH LIVES HERE

Ontario's medtech cluster supports a vibrant industry, innovating and developing a wide range of medical technologies used in the treatment, mitigation, diagnosis and prevention of disease. It boasts an impressive and growing diversity of companies in terms of size, focus, product and maturity level. Ontario has global-leading health research facilities and highly skilled talent, along with a stellar medtech ecosystem to support innovation that will benefit patients, companies and society.

Ontario gives access to innovative programs such as MaRS EXCITE (Excellence in Clinical Innovation Technology Evaluation).

The first of its kind in the world, it connects medtech developers with award-winning researchers to conduct pre-market clinical testing of advanced health technologies.

SUCCESS STORY

ABBOT POINT OF CARE is earning worldwide accolades for the i-STAT, a handheld device that can perform a range of commonly ordered blood tests within minutes using just a few drops of blood, reducing costs, improving patient care and providing speedier diagnoses.

Ontario is the ideal test-bed for your technologies and strategic partnerships.

Ontario spends \$665 million on research and development in the life sciences sector alone, and about 8,750 R&D personnel.

WHO IS HERE

- 3M
- GE HEALTHCARE
- GLAXOSMITHKLINE
